# **HEAD OF DANDRUFF**

Dissolve It, That's Best Way

The only sure way to get rid of dandruff is to dissolve it, then you destray it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in continuity with the finger and rub it in gently with the finger

Do this tonight and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely detroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you want to preserve your hair,

and feel a hundred times better.

If you want to preserve your hair, do by all means set rid of dandruff, for nothing destroys the hair more quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everyone notices it. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.
